2022-2023

DEAR STUDENT

If you want to study in the heart of Europe, [Howest University of Applied Sciences](#) is without a doubt the perfect spot for you.

Howest offers 25 bachelor's degrees and 12 associate degrees with a strong practical focus. Some of them are unique for our country, such as our award-winning Digital Arts and Entertainment (DAE), available both in English and Dutch. Our 33 English-taught programmes attract students from all over the world to our beautiful region, and provide them with top-notch education..

With [campuses](#) in [Bruges](#) and [Kortrijk](#), Howest provides an appealing programme within an impressive historical context. Bruges is one of the most beautiful cities in the world while Kortrijk holds a symbolic place in Flemish history and is a creative and entrepreneurial hub with a global outlook.

Howest has a vast tradition of international cooperation and is an active partner of many European universities. We also have a growing number of valuable [partnerships](#) with universities and fieldwork organisations in North and Latin America, Asia and Africa.

I'm sure Howest is a place for you.

We'll make you feel welcome!

Lode De Geyter / President of Howest University of Applied Sciences

Frederik D'Hulster / Vice President for Education, Research and International Affairs.

Isabelle Pertry / Director of International Affairs

AN INNOVATIVE UNIVERSITY OF APPLIED SCIENCES

Studying in the heart of Europe

With campuses in Bruges and Kortrijk, Howest University of Applied Sciences is at the very heart of Europe, only a two hour train journey to major cities such as Paris, London and Amsterdam.

BRUGES

- UNESCO World Heritage Site since 2000
- Medieval gem, with its romantic canals and cobbled alleys

KORTRIJK

- One of the hotspots of Flemish history
- UNESCO Creative City, city of innovation, creation and design with broad boulevards along the river Leie and a large shopping mall in the historic city centre

Howest is an entrepreneurial University of Applied Sciences known for its innovative and interdisciplinary approach to education and research, and its close collaboration with industry, business and the social profit sector.

We offer [25 bachelor's](#), [12 associate degrees](#) and [many postgraduate certificate programmes](#), all with a strong practical focus, in Business & Management, Industrial Sciences & Technology, Digital Design, Architecture, Healthcare, Education, and Social Sciences. Howest is a member of Ghent University Association, which provides high-quality higher education to about 1/3 of Flanders' student population. All programmes are fully accredited by NVAO, the Dutch-Flemish Accreditation Organisation.

Anticipating the future, starting from each individual student's talent and motivation, Howest educates its students to become competent, employable and team-oriented professionals. Industry and society-driven assignments and on-the-job training are key

components of our programmes. We achieve high-impact learning through modern approaches such as project based and cooperative education. Our WOW, Window on the World integration project, in which multidisciplinary student teams tackle community-based, real-life challenges, is just one of many examples. All students develop international competencies and have diverse opportunities to study, train, do projects or study trips abroad. With our alumni as proof, Howest meets the changing needs of society and equips its students for the future.

Howest sets the tone for socially relevant, practice and value oriented education, research and services to society, with a wide regional and international outlook.

Howest is an open-minded and pluralistic university of applied sciences, with respect for diversity. Howest inspires its staff and students to integrate its core values "serve-empower-care" in their professional and personal lives.

JINXING GAO / CHINA

"I have really enjoyed my stay at Howest, not only because of the courses, but also in terms of meeting new people from all over the world. What impressed me most is the patience with which the teachers taught us. Teachers, students and coaches gave me a lot of extra assistance with my IoT Device and Machine Learning lessons and helped to boost my confidence in speaking English. It has definitely been a wonderful and interesting exchange experience in Belgium, which will also benefit my future career."

JESSICA NAVARRO / APPSTATE UNIVERSITY, USA

"My time abroad gave me so much insight into myself. It was the best decision I have ever taken. Howest was such a welcoming community, from the faculty and professors to my fellow students. The culture that Howest cultivates for its international students is nothing short of exceptional."

NAKISA BASTAM / GERMANY

"The environment within the Bachelor of Digital Arts and Entertainment is just plain amazing. You are surrounded by people with the same passions, interests and dreams as you and that does not just go for the students, but for the teachers as well. I can confidently say that every single teacher here is amazing, both professionally and personally. I can say with the utmost confidence that coming here was the best decision I ever made. If you are up for the challenge this place will change your life. I am now starting to work in the field of my favourite hobby. It really is not a job, it is not work, but it is a privilege and a joy."

OUR RESEARCH: INNOVATIVE AND STATE-OF-THE-ART!

Howest University of Applied Sciences has a long history of knowledge collaboration with both large, international corporations and with local SME's. Almost all of our [research projects](#) are either demand driven or in close collaboration with enterprises.

Our research and innovation labs have a clear focus on applied research. They are organised around top-notch, highly skilled and innovative research teams. The Howest research and innovation labs bring

innovation to life, using the principles of quadruple helix innovation in which government, academia, industry and citizens collaborate to leverage structural changes. Our researchers anticipate the future by applying interdisciplinary research and creating bridges between domains and curricula, with education being the living lab of many research topics. Social profit and profit organisations from our academic and industrial network worldwide make use of our knowhow and expertise.

Howest's strong research niches within its academic fields:

- ENTREPRENEURSHIP
- CIRCULAR BUSINESS MODELS
- DIGITAL MARKETING & COMMUNICATION
- SOCIAL MEDIA COMMUNICATION
- DIGITAL STORYTELLING

- VIRTUAL & AUGMENTED REALITY
- ARTIFICIAL INTELLIGENCE
- BLOCKCHAIN & CYBERSECURITY
- BIOINFORMATICS
- SMART ENERGY SYSTEMS
- BIG DATA
- DESIGN FOR EVERYONE

- VITAL CITIES & COMPANIES
- PREVENTIVE HEALTHCARE
- SERIOUS GAMES
- MORAL DISTRESS IN ORGANISATIONS
- EDUCATIVE TECHNOLOGY

WE CAN'T WAIT TO WELCOME YOU!

Housing

Howest Student Affairs ([Stuvo](#)) helps our international students find suitable accommodation. We have [housing possibilities](#) in our own student residence or via the private market. A student room in Bruges will typically cost between €250 and €400 per month; a studio flat between €400 and €600. A student room in Kortrijk will generally cost between €270 and €470 per month.

A buddy for every international student!

International students will have [buddies](#) to help welcome and inform them, show them around in Bruges or Kortrijk, introduce them to the student life at our campuses and make them feel at home. We want all incoming students to be well connected with local students and well guided during their stay in Belgium.

Orientation Week

Each semester we organise a full-time orientation week before the start of the actual lessons, free of charge. Through fun, team-building activities and excursions, incoming students will get to know other international and local students, their Howest campus, the Howest cities Kortrijk & Bruges and other beautiful places in Flanders.

Howest buddy & international pals
Aizpea Garmendia Iartza, Bruno Tardaguila and Noor Van de Steen
